Event Attendance

Being Present in Cybersecurity Dialogue

Google Cloud Next '24

We attended Google Cloud Next in Las Vegas, Nevada!!

As Google Cloud Partners, it's essential for our team to stay present in the cybersecurity dialogue! The event was coordinated efficiently with large-scale interactive booths and a grand offering range including headshot and 360 camera sessions! The conversation was topical, staying on trend with a spearhead on AI in Google Cloud with various talks including those on marketing, healthcare, and multiple industries.

Join our talk as we recap this session, today at 6 PM!

How We're Giving Back

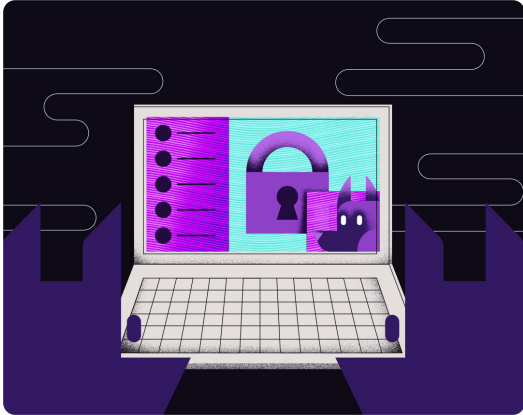

Boys & Girls Club of Metropolitan Atlanta

For Q2, HanaByte had the opportunity to work with the Boys and Girls Club of Metropolitan Atlanta (BGCMA) for a second year. By invitation, we were asked to return to present at the career fair in Norcross to college prospective students about the Cybersecurity industry and the job opportunities that exist. Many students have a hard time identifying whether or not this industry has space for their unique interests and talents. This makes our presence in this dialogue instrumental in planting the seed of inspiration and creating a welcoming space!

Many of the students were already moving on their various paths forward, with careers and opportunities laid out through scholarships and passions. It was great to see the ambition in their eyes! However, sometimes, it just takes the proper conversation to open up the door to the potential for something you've never considered before. Additionally, speaking to members who were already interested in the industry was beneficial to guide them towards the next steps. Regardless of where the members are heading, the HanaByte team offered cybersecurity knowledge and tips to help make their futures and daily operations a little more secure!
