

# Chronicle SIEM and SOAR Workshops

Embark on a transformative journey into the realm of cybersecurity with our Chronicle SIEM and SOAR Workshops, where technical expertise meets approachability.

In these workshops, we decode the intricacies of SIEM and SOAR in a manner that is both engaging and enlightening. Not only do we define these terms, but we guide you through their workings, offer real-world examples to make concepts tangible, and provide actionable advice for safeguarding your digital frontier. As your trusted advisor, we go beyond education; we foster a true partnership in assisting with technical expertise where possible. Join us in this educational adventure, where cybersecurity is not just a necessity but an empowering experience.

## SCOPE

- Engage with your team and perform a series of interactive workshops that include: hands-on training, dissemination of educational materials, and presentations to allow for insight on Google Chronicle SIEM and SOAR.
- Tailored, comprehensive guidance on protecting against advanced threats, drawing from real-world examples, and connecting theoretical knowledge to tangible scenarios to enhance understanding and organizational implementation.

## DELIVERABLES

- Delivery of workshops and training materials for Google Chronicle SIEM and SOAR
- Delivery of prescriptive guidance on Google Chronicle SIEM and SOAR
- Regular remote meetings to track progress that best fits your schedule

## PERSONNEL

- Security Consultant(s) will be assigned to the engagement for a flat fee

## CUSTOMER RESPONSIBILITIES

- Provide access to related documentation and in-scope systems

# Our Services

## Cloud Migrations & Modernization

We ensure a secure cloud migration & modernization of your workloads, data, and infrastructure. Our team provides guidance and support throughout the entire process, from planning and execution to post-migration optimization.

## Security & Compliance Advisory

As your best friend in security, we work with you every step of the way to develop and execute a robust security and compliance strategy. Through the use of assessments, workshops, and program development we provide a detailed roadmap and actionable recommendations to achieve your goals.

## IAM & Zero Trust

We work with you to integrate Identity and Access Management best practices and procedures. We ensure that your authentication and authorization can be measured for every access request, ensuring that only verified users can interact with sensitive resources, and reducing the risk of data breaches and cyber attacks.

## DevOps & Security Engineering

Our DevSecOps experts are ready to assist with maturing a software development lifecycle, creating cloud automation, and performing tool integrations to foster secure engineering practices. We specialize in CI/CD, containers, and infrastructure as code.

## Application Security & Software Engineering

Our services provide end-to-end protection for your applications and APIs. Our team will work with you to implement the latest technologies to keep your applications secure from development to deployment and reduce the risk of supply chain attacks.

## AI & Data Security

We offer cutting-edge protection for your digital ecosystems, ensuring safeguards for sensitive data and artificial intelligence (AI) are implemented properly so that you can stay on top of the ever-evolving landscape of cyber threats.

# About HanaByte

We are a team of skilled, empathetic individuals with a passion for cybersecurity. We believe in creating a safe and secure online environment for everyone, and we're committed to the pursuit of that goal.
