# New & Upgraded

## Our New Team Members & Promotions

### Bethany Jug

#### Marketing Coordinator

Our wonderful Marketing Intern has joined our team as our Marketing Coordinator this month! Bethany has been working with HanaByte since November of 2023, showcasing her passion for both marketing and the cybersecurity industry through her continuous learning! She has been an invaluable resource and we're excited that she has chosen to remain part of our pack! Keep an eye out for all of the incredible things she's got planned for us on the horizon!

### Patrick Davis

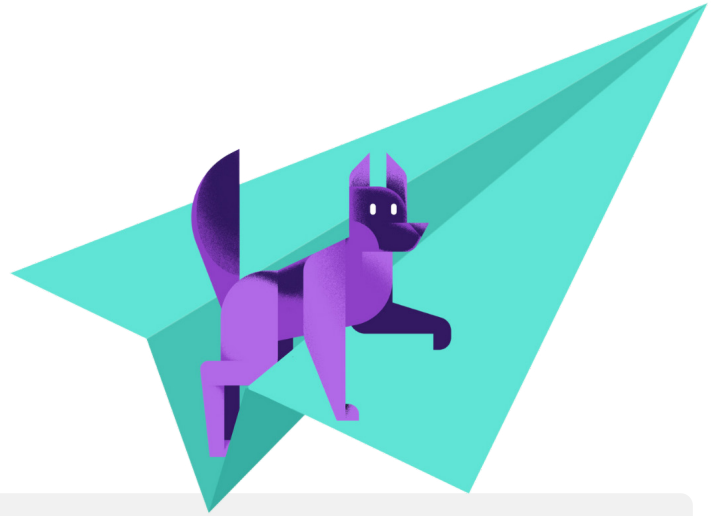

#### Principal Security Consultant

We're thrilled to announce that Patrick Davis has been promoted to Principal Security Consultant this month as well. It's such a pleasure for our company to be a part of his journey as he has quickly obtained certifications and grown in his abilities over the last year with our pack. As a mentor in our Associate Program and one of our leads on projects, Patrick is an MVP and we're so lucky to have him!

# Our New Certifications

What We Can Do For You

We're always leveling up our certifications. Here are one of the many skills our team members have achieved!

**My Ha Nguyen**

## Upcoming Talks From The Ohana

### **BSides Atlanta**

“This is a gated community please get off the property”

[Atlanta, Georgia](#)

[09.14.24](#)

Simon Abisoye will be hosting a talk discussing an interesting link between cybersecurity and squatters! Using the illustration of a party guest who overstays their welcome and tying it to the real life problem of landlords facing squatters as a result of cybercrimes, Simon will speak about this engaging Web Application Firewall event and the strategies used to target such issues. You can find out more [here](#).

### **Techno Security & Digital Forensics Conference**

“Securing Serverless Workloads”

[Pasadena, California](#)

[09.18.24](#)

Patrick Davis will be speaking on how serverless architecture provides some great benefits, like near-infinite scalability and distribution. His talk will address how one can start small and expand as needed, in addition to the need to take into account the unique challenges this brings. He will share his expertise on how an organization can securely scale their applications with native solutions for mitigation, monitoring, and assurance.

### **SANS CloudSecNext Summit & Training**

“From AFT to ATO, AWS native FedRAMP through Terraform”property”

[Denver, Colorado](#)

[09.30.24](#)

Join Michael Greenlaw as he presents on the process of obtaining a FedRAMP ATO in the AWS cloud, which often begins with a separation of federal and commercial resources. This separation, sometimes a move to a new AWS account, is a long and tedious process when starting from zero. He will explain how to simplify and automate this process using Terraform with AWS Control Tower via AFT.

# Event Attendance

Being Present in Cybersecurity Dialogue

## Meet The Pack In Person!

BSides Atlanta

September 14th 2024 from 8:00 AM to 5:00 PM Eastern Time.

This event will take place at Kennesaw State University Center. [Register here.](#)

## Cancellations on the Horizon...

Unfortunately, we are faced with some event changes.

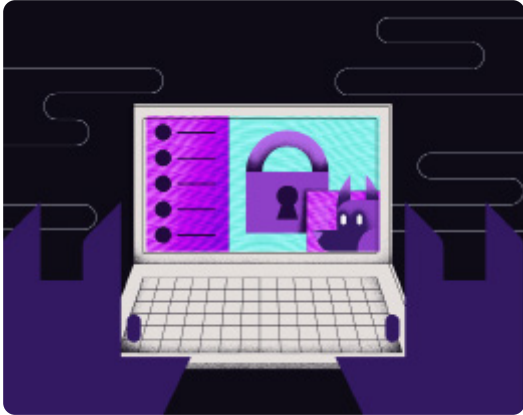

CUI-CON will no longer be held this fall, but has moved to February of next year. Therefore, our pack will not be in Seattle, but fear not as we will continue to monitor opportunities to connect in the future!

SECtember.AI Global will be attended virtually now. This event will take place on September 26th and we invite you to join us online. [Register here.](#)

Additionally, we will not be hosting our Weekly Friday Office Hours on Discord on October 4th, 2024 as the pack will be Out of Office to end Culture Awareness Month. We will resume Office Hours the following week, so keep the link below bookmarked!
